

## WORK TASK

Once the Data Mapping is completed, kindly proceed with creating the Business Requirements Document for the Proposed System and send it to us once finished.

The objective of a BRD is to:

1. To gain agreement with Stakeholders
2. To provide input into the next phase for this project
3. To describe what how the customer/business needs will be met by the solution

Please include the following:

1. Summary
2. Objectives
3. Background/ Business Requirements
4. Scope
5. Functional Requirements

Please add more items in the BRD in addition to the ones mentioned above.
